

VOTING

LIBERAL JUNE 28?

Before you cast your vote, take a few moments to reflect on what the Liberals have brought us in their reign of power:

A silenced population:

In a free democratic society people are encouraged to challenge the government on issues and voice oppositions to issues they disagree with. Ideally, any person who disagrees with the governments' actions or policies can write their elected officials and voice their complaints. **NOT IN LIBERAL CANADA!** Toronto citizen Brad Love wrote several MP's to voice his concern over crime and unreasonably high levels of immigration. His MP's didn't like letters critical of the government's policies and he was arrested. Brad Love spent 18 months in prison for writing his MP's! Another case is that of Jack Carleton from Cambridge, Ontario who wrote an angry letter to Dalton McGuinty regarding the broken promises of the past provincial election. Mr. Carleton's letter upset Premier McGuinty and McGuinty sent his thugs to Carleton's home and had him arrested. Neither Brad Love's nor Jack Carleton's letters contained any threats of any type - but they were arrested for writing letters of disapproval! The Liberals have waged war against citizens to silence those who oppose them.

Lies!

Let us not forget Liberal Dalton McGuinty's promise that he wouldn't raise taxes one cent and if it was necessary, they would hold a referendum to let the voters decide if a tax increase was necessary. So far, we've heard of the impending raise in taxes but nothing of the promised referendum. Though they promised to act like a decent democratic party they show their parties true nature as undemocratic TYRANTS

Government sanctioned racism:

The Liberal's had enacted the federal enforced "employment equity" in one of their previous terms in power. Call it what you will and justify racism if you like, but the fact of the matter is; when you discriminate against people based on their race, background or religion it is racism. What does Etobicoke North Liberal MPP Dr. Shafiq Qaadri have to say about the governments' racist hiring practices? "THERE'S JUST TOO MANY WHITE PEOPLE"
